

## ONE JUROR IS WANTED IN FORD CASE

BUT ONE PEREMPTORY CHALLENGE REMAINS TO BE EXERCISED BY DEFENSE.

After nearly two weeks spent in securing the jury in the case of the state of Nevada vs. W. F. Ford, the jury box is nearly full and it is thought that by tomorrow evening the actual taking of testimony will commence. At the conclusion of yesterday's session of the district court there remained but one peremptory challenge to be used and that belonged to the defense, the state having exercised their allotted number. The special venire of ten names, which was drawn yesterday morning has been over used, but it is thought that the remaining four will prove sufficient to secure the one juror.

Since the starting of the trial the jurors have been locked up and they will be kept in the sheriff's charge until the conclusion of the case.

The jury would have been secured yesterday only for the fact that two of the jurors were excused. John Dempsey was allowed his liberty owing to the fact that his wife and infant child are ill while John Dundson was excused owing to the fact that he was ill. Both had been passed subject to peremptory challenge.

## AN INDIAN IS BOUND OVER TO THE GRAND JURY

CHARGED WITH THE MURDER OF INDIAN HENRY NEAR PAHRUMP.

Deputy Sheriff Tom Marshall returned yesterday morning from Rhyolite, bringing with him an Indian by the name of Ed Bruce, who is charged with the murder of another Indian named Indian Henry.

The murder took place on July 18 and was one of the most brutal crimes ever committed in the history of this county. From what could be learned it is understood that Indian Henry, with his squaw and daughter, was driving between Whites and Pahrump, and was accompanied by Bruce and John Scott, another Indian. The two latter were on horseback. All had been indulging freely in the white man's freewater and engaged in a fight. Bruce after knocking Henry to the ground stoned him to death. Then placing the body in the wagon they drove nearly to Pahrump where the body was dumped face downward in the sagebrush at the side of the road. The little girl in the party informed the authorities, who secured the body and held an inquest.

At the preliminary hearing Tuesday Bruce was bound over to the grand jury and on receipt of this information Sheriff Owens dispatched Marshall to Rhyolite to convey the prisoner to this city. He is now confined in the county jail.

## SAYS STORY IN EVENING PAPER IS FALSEHOOD

W. A. WEATHERBY OF MANHATTAN REPLIES TO ERRONEOUS ARTICLE.

The following letter was received yesterday by the Bonanza from Captain W. A. Weatherby, of Manhattan. It is self explanatory:

"Manhattan, Nev., July 27, 1909. 'To the Editor of the Tonopah Bonanza.

"Dear Sir: In an editorial of the Tonopah Sun of the sixteenth inst. there appeared in bold type a scurrilous article about me. The article is false, insinuating and offensive. The cause from which this tirade emanated I know not. I never made a statement to any one either for or against the methods employed in the working of the Manhattan placers. I have not been out of the camp since I came here three months ago to take charge of the Big Five Mining company mines. I can be found daily at company's workings of which I am superintendent—attending strictly to my own business. And while I never had the distinction of 'driving a laundry wagon,' as the article falsely states, I never looked on the occupation as degrading, and I would consider it far more honorable and preferable to being associated with a blackmailing sheet like the Tonopah Sun. And if the editor makes any pretensions of being a gentleman he will give an apology as conspicuous a place in his paper as he has this disreputable article.

"W. A. WEATHERBY."

## MINING MAN OF ELLENDALE IS IN TOWN

WORTH STATES THAT LEASERS ARE HARD AT WORK DEVELOPING.

J. G. Worth, the well known Salt Lake mining man, who is interested in several leases at Ellendale, is in from that district, and states that all the leasers are hard at work developing their holdings.

On the lease owned by Mr. Worth on the Sandstorm claim, the first set of timbers has been installed and the force is preparing to seek depth with the least possible delay. The tunnel that is being sent in to intersect the ledge of the big strike, is expected to tap the high grade within the next few days. They have about ten or twelve feet yet to go according to the calculations, although this distance may be greater according to the dip of the vein.

Mr. Worth will return to the camp within the next day or two and after spending a week there will take a short trip to his home in Salt Lake where he is called on important business.

## DIVISION SITE FOR RAILROAD IS NOT SETTLED ON

THOUGHT PROBABLE THAT MILLERS WILL BE CHOSEN FOR NEW LOCATION.

Concerning the article that appeared in an evening newspaper of this city yesterday, and agitating that a mass meeting be held to object to the Tonopah and Goldfield railroad company removing its shops from this city, a representative of the Bonanza asked Superintendent Hanlon last night concerning his idea as to the reported removal.

"The exact site for the new shops has not been definitely settled upon," said Mr. Hanlon, "although the company has fine substantial buildings at Millers and it is probable that the new location will be there. We are now waiting to adjust our losses caused by the fire, with the insurance companies, and this should be settled within a very few days."

While Mr. Hanlon would not commit himself relative to Millers being the new location, it is more than probable that the mill city will capture the plum for the railroad company has erected a large building for all uses and is now waiting the machinery. A turn table has also been built, as has a round house.

It is understood, however, that the main offices will remain in Tonopah, although a few of those connected with the mechanical end of the road will follow the shops.

## LOCAL MEMBERS OF THE A. I. OF M. E. WILL ENTERTAIN

WILL PROVIDE ENTERTAINMENT FOR MEMBERS OF MINING CONGRESS.

The Tonopah members of the American Institute of Mining Engineers have started making preparations for the entertainment of the members of that order who will visit this southern country at the time of the meeting of the members of the mining congress which convenes at Goldfield on October 15.

The mining engineers will hold a meeting at Spokane, Washington, on September 15 and following this will tour the western country, paying visits to Tacoma, Seattle and many other localities where mining is numbered as the chief industry. Following their visit to Tonopah they will journey to southern California and then through the Yellowstone park.

The local members will make the stay of the visitors as pleasant as possible and will show them through the mines, concluding the stay with a banquet.
